Bruce H. Burcat
Executive Director
Public Service Commission, State of Delaware
861 Silver Lake Blvd.
Cannon Building, Suite 100
Dover, DE 19904

Mr. Burcat

Please accept this letter as a request under the Freedom of Information Act (29 Del. Code 10001, etc.) for access to the PDF versions of the full, original, un-redacted generation proposals now under Commission review as part of the Delmarva Power IRP/RFP process.

The News Journal intends this request as an objection to any withholding of information from RFP documents submitted by Conectiv, NRG Energy or Bluewater Wind.

Our objections cover any denial of access to information from the bids, including redactions of project costs, potential generating capacities, prices for energy and projected environmental emissions of any type, under any scenarios.

We do not believe that our concerns have been answered by the commission's FOIA review or by the recent removal of restrictions covering some details redacted in the original public copies of the proposals.
